Dragonfly – AI Defect Coding of Sewers in POSM Software

Revolutionize your sewer infrastructure management with Dragonfly, an AI-powered solution seamlessly integrated into POSM

Key Benefits:

- **Accurate Data:** Reduce variability with AI, trained on 10M+ ft of sewer video footage.
- **Efficiency:** Automatically identify defects, track severity, and process backlog footage.
- **Pipe Maintenance Recommendations** Powered by Argon: Proactively manage, forecast, schedule, and estimate costs.
- **Trusted Support:** Comprehensive services from Jacobs.
- **Upgrade your sewer inspection and maintenance with Dragonfly in POSM Software.**
